BLANCO UNIT
drink. prep. clean.

ONE SYSTEM: ONE UNIT. ONE SOLUTION.

BLANCO UNIT

drink. prep. clean.

Drink. Prep. Clean. United at last.

All of your kitchen workflows. In one place. The BLANCO UNIT makes the most of your water hub, transforming time in the kitchen into a highlight of your day. Drink, prepare and clean in a few simple steps and without having to move from place to place. How you benefit: greater enjoyment of day-to-day kitchen tasks and more time for what really matters. See for yourself how the BLANCO UNIT can make your everyday life that bit easier.

Mixer taps. For every requirement.

Whether you need a pull-out spray, a retractable window solution or a smart water system: Our mixer taps come in a wide range of designs. So they work the way you want them to.

Sinks. For every taste.

Our sinks are available in different sizes and with a range of installation methods. And for every standard base cabinet. Three high-quality materials also offer you the option of designing the BLANCO UNIT your way: In Silgranit, stainless steel or ceramic. The choice is yours.

Waste management and organisation systems. For every need.

Available in a range of sizes, cleanly set and perfectly adapted to all base cabinet components, Our waste systems do more than just collect waste.

Accessories. For every need.

Freely adjustable rails, precisely fitted cutting boards, integrated soap dispensers – our mission to make everyday kitchen life easier extends to our accessories, too.

BEAUTIFUL. STRONG. CLEAN.

SILGRANIT® kitchen sinks and bowls.

Silgranit sinks are adored around the world for their exclusive styles and designer colour palette.

The kitchen has become a central point in our homes and a reflection of our lifestyles. With a wide range of styles from proven classics to exclusive award-winning designs, available in a broad selection of configurations and sizes, you can find the right Silgranit sink or bowl to create your customer's dream kitchen.

Thanks to the combination of beautiful design and an impressively resilient, easy-care surface, a Silgranit sink is the ultimate choice for long-lasting kitchen bliss. A Silgranit sink is highly resistant, easily dealing with domestic use including cutlery scratches, de-frosting food, boiling water and even hot pans and trays.

Silgranit is the clean hero in your kitchen. Its surface is food-safe and repels water, making it easy to keep spotless. What's more, tests* confirm that our patented Hygiene+Plus formula reduces the growth of relevant kitchen bacteria by an average of 98%. Set your heart on a beautiful Silgranit sink to make kitchen life easier everyday.

Regular internal quality checks in the production of our Silgranit sinks and bowls confirm the high standards that we set ourselves, and ensure you products you can rely on.

* Tests carried out with bacterial stems ATCC 8739 and ATCC 6538 by an independent laboratory on behalf of BLANCO, 2011.

BEAUTIFUL COLOURS.

Discover SILGRANIT®'s beautiful colour palette.

Silgranit's beautiful, smooth surface is available in a range of design-oriented colours that won't fade. Colour is such an important part of our lives, especially within our homes. It is a fundamental aspect of interior design, and we use colour as a form of creative expression. It has the power to uplift, energise, soothe and awaken.

Be inspired and create adorable kitchens with a spectrum of Silgranit shades, available in our bowls, sinks and mixer taps portfolio.

Inspired by modern architecture, BLANCO offers selected sinks and bowls in an on-trend concrete look. The lively interplay between matte and satin matte areas and individual colour gradients makes every concrete-style sink a unique piece.

concrete-style

IMPRESSIVELY ELEGANT. REMARKABLY INTENSE.

Sinks and bowls in SILGRANIT black, defining kitchen design.

Silgranit black transforms the kitchen into a real interior highlight.

The 'achromatic' colour of black – as it does not reflect light waves – captivates us with its expansive, fathomless aura. It shines with an infinite variety of associations - it inspires. And then there's its prominent role as a classic design colour; it never goes out of fashion or has an expiry date, even in the face of fast-moving trends. One way or another, the new black from BLANCO is already a classic in interior design, goes with almost every style of décor and brings all elements of the fittings together with quiet elegance. Last but not least, the sink and colour expert has immersed its entire Silgranit product range in this new and striking shade, thus opening up even more design options: In kitchens with pale worktops and furniture, these diverse sinks and bowls in black create opulent, high-contrast accents, which work particularly well when combined to perfection with matching Silgranit Look mixer taps.

These must-have design elements are available in a vast array of versions, allowing you to amp up the impact of the contrast between light and dark to suit your individual taste. Alternatively, with little effort you could really commit to a restrained yet luxurious atmosphere with a completely black kitchen. Just add a sink or bowl and a high-performance mixer tap in exactly the same deep Silgranit black to a black worktop to create a stunning yet tasteful visual effect. Giving your kitchen a bespoke design by introducing black elements always looks stylish and tasteful. This range highlights BLANCO's passion for sophisticated kitchen design. The whole purpose of the unadulterated, deep black and extensive design options afforded by Silgranit is clear: to make your ideal design a reality, so that you really love your kitchen! After all, this is a focal point in your daily life.

Diversity in kitchen design – for strong personalities.

With Silgranit anthracite, BLANCO offers a tone that captures the exciting, vivid surface of granite worktops and reflects the look to perfection. But for those cases in which an unusual kitchen design calls for darker, more restrained elements, the colour expert has brought a new nuance into play: Silgranit black is the ideal shade for anyone keen on a bold contrast – or who wants to use an understated colour palette to achieve a certain visual effect. With its quiet elegance and calm, restful depth, black from BLANCO achieves two impressive effects: worktops made of white marble or quartz create an intense contrast with mixer taps and sinks in Silgranit black, invariably introducing tasteful accents that prove to be eye-catching features. They are a striking expression of strong personality, adeptly showcasing a sense of individuality. Mixer taps and sinks in the new Silgranit black nestle perfectly into dark worktops, so that they exert even more of a mysterious pull. Restrained style has never looked so stylish or effortless as it does here. Silgranit black thus opens up amazing new design options for kitchens. And then there's the fact that it goes perfectly with the velvety-smooth Silgranit material, with its fine-pored surface, which feels wonderful to the touch.

The art of effortlessness.

The deep, elegant shade of Silgranit black is not only easy on the eyes, but is also a touch sensation: the velvety, stone-like, micro-rough surface feels great, while also ensuring that water drips off, so that dirt or limescale cannot stick, and marks or metal abrasion cannot find any surface to attack. These perfect material properties are also a feature of Silgranit black: it has never been easier to care for and maintain black sinks and mixer taps over time.

The kitchen highlight Silgranit black

- Deep and elegant colour shade
- Offers extensive design opportunities: From contrasting accent elements in black to elegant understatements in matching dark tones.
- Available for the entire Silgranit sink and bowl range
- Matching Silgranit Look mixer taps round off the kitchen design

For more information, see www.blanco-indonesia.com

Elegant understatement: Sink and mixer tap in Silgranit black nestle perfectly into dark worktops.

Must-have design element: BLANCO mixer taps in Silgranit-Look black.

THE HEART OF MODERN FAMILY TRADITIONS

VINTERA XL 9, Reshaping classic design.

Kitchen design inspired by classic shapes.

Familiar shapes, patterns, colours and materials often provide inspiration for new design trends, bringing stylish vintage flair into the home. This return to tradition and high-quality products is particularly apparent with the sought-after modern country style, which exudes permanence and appeals to all of the senses.

BLANCO brings this style into the kitchen with the VINTERA XL 9. This sink translates traditional design elements into a contemporary shape like no other, and combines this with the material benefits of Silgranit. In doing so, it makes a real statement for trend-setting kitchen design.

Unique taste comes from good ingredients.

The VINTERA XL 9 is impressive not only for its language of form and material, but also for the array of options that it offers for customisation. Selected colours and a wide range of mixer taps allow it to be adapted to your own taste and style of interior design. It can be either flushmounted or installed as an undermount, according to your own preference. This makes the VINTERA XL 9 a sink that is tailored to be the perfect ingredient for a high-quality kitchen where the whole family will feel at home.

Big enough for the whole family.

With the VINTERA XL 9, BLANCO is also bringing the feel of spacious country-house kitchens to city apartments. There's enough room for pans, pots and baking trays here, while leaving enough space for several people to work together. The large bowl with its striking granite-look apron front looks at once rustic, minimalistic and contemporary, while the stonelike, silky surface of the sink lends it a pleasantly warm, almost natural feel. The Silgranit material makes the VINTERA XL 9 particularly resistant and easy to clean. Bring modern country style into your kitchen and create a feel-good haven for you and your family.

VINTERA is available in these SILGRANIT colors

Installed as undermount for a classic look

Installed as flush-mount for a modern look

SOPHISTICATED AND MYSTERIOUS.

BLANCO Dark Steel – pure stainless steel in lustrous matt dark grey.

The velvety soft surface is easy to clean with water and a microfibre cloth.

The polished IF-flat rim creates a harmonious contrast with the elegant dark grey stainless steel.

The ZEROX Dark Steel bowl can be retrofitted with the new black matt waste and overflow kit if desired.

BLANCO Dark Steel is another spectacular SteelArt material innovation.

The high-impact stainless steel surface in elegant, lustrous matt dark grey is bound to attract plenty of admiring glances. It simply exudes sophistication and imbues any kitchen with a distinctive personality. Its mysterious allure is perfectly paired with modern kitchen styles that feature dark colours and top-quality materials. BLANCO Dark Steel is the ideal solution for exclusive kitchen designs that place a particular emphasis on furnishings that radiate individuality.

Dark Steel is 'pure' stainless steel without a coating, refined in the SteelArt Hightech Manufactory using a special finishing process. The surface has a surprisingly warm, velvety soft texture that does not resemble chilly metal at first touch. The innovative, top-quality stainless steel is impressive not only in terms of its appearance, but also when it comes to cleaning and care. Fingerprints and dirt are easy to remove with water and a microfibre cloth. The colour does not fade when exposed to sunlight.

Dark Steel is available in the striking BLANCO ZEROX bowl design, in two bowl sizes for undermount installation, or with an IF rim. The top-quality InFino and C-overflow equipment also sets stylish accents in polished stainless steel. What's more, the IF models bring another visual element to the harmonious mix of surfaces: the matt IF-flat rim framing the bowl.

ZEROX 500-U Dark Steel

ZEROX 500-IF Dark Steel

Elegant stainless steel bowls in lustrous matt dark grey

- Pure, innovative stainless steel
- Warm look and velvety soft texture
- Two bowl sizes for undermount installation or with IF rim
- Easy to clean

BRILLIANT: THE MULTI-LEVEL BOWL.

BLANCO ETAGON.

One bowl, two rails, three functional levels. This new functional level concept from BLANCO transforms a bowl into a fully-fledged sink. The integrated step allows the bowl to be used in parallel on 3 levels: in the bowl itself, on the bowl step and on the edge, thanks to carefully designed accessories and clever details.

As such, BLANCO ETAGON combines this functionality with a top-class aesthetic. The bowl's elegant radius design and high-quality equipment, with the hidden C-overflow and the innovative InFino drain system takes modern kitchens to the next level.

The rails transform your ETAGON sink into a work station. The truly remarkable thing is the system concept combining the bowl geometry and the ETAGON rails. Made of high-quality stainless steel, they support the intermediate level, where they have multiple uses: you can put things down or fill them up with ease, also as a support for cleaning trays in the bowl or as the perfect place to dry and store items such as pot lids, drinking bottles or dishwashing utensils. The heatresistant ETAGON rails can also be used as a trivet on your worktop.

BLANCO ETAGON bowls in stainless steel are available in three installation options and in two sizes.

For perfect kitchen prep on multiple levels.

ETAGON comes in different sizes and versions, including the tried and tested Silgranit®.

Also available as the BLANCO ETAGON 500-IF for installation from above or flushmount installation.

This practical model also comes in ceramic.

CLASSIC. TIMELESS. BEAUTIFUL.

Stainless steel sinks and bowls.

Stainless steel sinks are timeless and elegant, and often the preferred material of kitchen planners. Besides its ideal properties for preparing food and cleaning dishes, stainless steel also offers plenty of design options and product features, like rounded or tight corners, different bowl depths and sink shapes. A wide range of styles opens up endless possibilities to find the right sink for every kitchen, while the neutral tones of stainless steel blend harmoniously with any kitchen environment.

Stainless steel is a hygiene expert, its surface is smooth, tough and pore-free, making it exceptionally easy to clean. The premium quality of the BLANCO stainless steel makes our sinks safe for food use. It also has a natural resistance to common household acids and stains, e. g. coffee, tea, fruits, and vegetables. Making food preparation on its surface, carefree.

Stainless steel is robust. Dishes or vases that drop onto it will not break easily. Putting hot cookware or pouring off boiling water into the sink won't affect the heat-resistant surface. With minimum care needed, stainless steel sinks will retain their brilliance and perform perfectly for decades.

MAKE A STATEMENT IN BLACK.

SUBLINE Black Edition and ETAGON Black Edition.

The SUBLINE 500-U and ETAGON 6 Black Edition Silgranit bowls are the perfect solution for anyone who wants to make a statement!

The Black Edition is a particular highlight for design aficionados and those who like a streamlined look: all of the visible functional elements (pop-up, C-overflow and InFino drain system) are in matching black and of the utmost quality. What's more, they come included, so they do not need to be ordered separately. Achieving a colour-matched look could not be easier.

BLANCO BOWL RANGE.

Myriad designs, materials and installation options.

BLANCO offers myriad bowls in different sizes, for all standard base cabinet dimensions. As well as single bowls, there are also models with two bowls or a smaller additional bowl. You can choose the bowl design that works best with your style of décor, all the way from classic to linear and modern.

So as to meet all of our customers' desires, BLANCO offers bowls in all three of the standard materials: Stainless steel, Silgranit and Ceramic. Materials and colours can be selected to work with their surroundings, whether that means matching shades or choosing an accent colour. You can also choose from a range of options when it comes to installing the bowl. Many models can be installed using different methods.

The classic option is installation from above. This is suitable for all worktop materials and allows swift and straightforward installation.

Lots of bowls can also be installed with a flushmount method, thus eschewing any troublesome edges.

The bowl has an elegant, flushmount look when installed from above with an IF-flat rim, even into laminate worktops.

Installation from below is very popular for worktops made of natural or artificial stone. Stepless installation creates a harmonious overall look.

AESTHETICS AND FUNCTION IN ALL THEIR FACETS.

BLANCO kitchen mixer taps.

We strive for excellence, particularly when it comes to coordinated tap, sink and waste system. For a seamless water place in the kitchen, both in terms of function and aesthetics, as well as installation and service.

BLANCO offers a wide range of premium mixer taps – for a wide variety of requirements and interior styles. Excellent quality, appealing visual appearance, smart technology and easy operation paired with a choice of sizes and colours make it easy to find the right mixer tap.

BLANCO is highly aware of their responsibility for the most valuable life source – drinking water. BLANCO mixer taps are extensively tested for technology and hygiene, offering one of the highest standards in quality. All water-conducting components are tested and certified.

All components used are made to the latest material developments and technologies, and from the very highest quality materials thus providing maximum safety in terms of health and hygiene. Durability and stability of the components are at the core of our product engineering.

HARMONY OF CONTRASTS.

Black matt.

Mixer taps in black matt set particularly striking accents on grey and concrete-style sinks. Along with the semi-professional CATRIS-S Flexo and its full black matt look, this surface finish grants a timeless beauty that is also available in various mixer tap models, delivering answers for a wide range of customer requirements.

A special surface: completely matt black, down to the smallest detail for an ideal contrast with light sinks or stainless steel bowls with tap ledge.

Accessories are also available in matt black such as the cylindrical soap dispenser LATO.

Remote pop-up control, overflow and basket strainer – all these available in a black matt finish perfectly complement the mixer tap for a seamless design.

PERFECT CARE MADE EASY.

BLANCO CARE cleaning and care products.

BLANCO sink and mixer tap surfaces are resistant and attractive. To ensure that they stay that way for as long as possible, they should be cleaned and cared for on a regular basis. BLANCO CARE cleaning and care products allow you to achieve this in a lasting and sustainable way. The products are easy to use and have been ideally formulated for BLANCO surfaces.

Achieve an optimal result in just three steps:

- daily cleaning with standard household cleaning products, e. g. washing-up liquid and a microfibre cloth
- regular cleaning with DailyClean+
- deep-cleaning with special cleaners designed for specific materials, from the DeepClean range.

BLANCO CARE cleaning and care products have formulas optimally suited to BLANCO sink and mixer tap materials.

All products are specially developed for BLANCO materials and undergo intensive testing by our Research and Development department.

The professional limescale remover DailyClean+ gently cleans all sink and mixer tap surfaces.

DailyClean+

526305

- Professional limescale remover for all sink and mixertap surfaces
- Gentle – suitable for everyday use
- Do not use on surfaces that are sensitive to acid. Follow the manufacturer's care instructions. If in doubt, test it first in an inconspicuous place.

DeepClean Stainless Steel is used when blemishes or minor scratches on stainless steel sinks require more intensive care.

DeepClean Stainless Steel

526306

- For deep cleaning of stainless steel sinks
- To be used if blemishes cannot be removed with everyday care products
- Helps to remove small scratches, extraneous rust and stains
- Allows water to run off, prevents fingermarks and dirt
- Not suitable for the stainless steel surfaces Durinox, Dark Steel, natural finish or linen, or chrome-plated surfaces and kitchen mixer taps

COLLECTING. SEPARATING. CREATING ORDER.

BLANCO waste and organisation systems.

The sink base cabinet plays a major role in kitchen planning. It is the place where waste is collected, cleaning products are stored and which is often limited in space by the components of a water system, such as a boiler or filter. Here in particular it is important to have a waste or organisation system, which makes optimal use of the remaining space and can be adapted to individual needs.

BLANCO offers the right system for almost all cabinet widths and pull-out types. If the space in the base cabinet is limited, our special solutions such as SELECT II Soda or SELECT II Compact are used. FLEXON II Low offers flexible solutions for base cabinets with divided drawers, e.g. the installation of the waste or organisation system directly under the worktop.

With their attractive and functional design and high product quality, the BLANCO waste and organisation systems enrich every kitchen.

BLANCO waste systems disappear elegantly in the sink base cabinet. It does not matter whether the cabinet has hinged doors, pull-out fronts or drawers and how wide it is. We always have a suitable solution.

Clever accessories are used wherever there is a need. For example the MOVEX foot control when you have both hands full or the practical bin lids to avoid unpleasant smell in the base cabinet.

MAKING KITCHEN TASKS EASIER

Matching accessories for the kitchen water place.

A sink can be so much more than the place where dishes and food are cleaned. With our ingenious accessories, it can be transformed into a multifunctional workplace in just a few simple steps. Streamlined work flows eliminate the need for unnecessary actions, making preparing food a breeze. This option offers a very practical additional benefit, especially in small kitchens.

A practical accessory for every sink is a colander. When hung in the bowl, it can be used to temporarily store prepared or cleaned food or cleaned dishes and cutlery.

A cutting board increases the work surface and can be flexibly positioned and moved over the sink.

The floating grid can be used to create an additional functional level. Ideal e.g. for draining crockery or washing food.

ACCESSORIES FOR BLANCO SINK PROGRAMMES

FOLDABLE GRID

- Can be placed on the drainer, over the bowl or on the worktop
- Extends the versatility of the sink centre, e.g. for draining washed items or filling up pots
- Variable positioning on the drainer, in the bowl or outside the sink
- Easy to stow away thanks to the practical folding function

For sinks and bowls with a bowl width of 400 mm

238 482

CORNER CADDIES

- Rising and draining high-quality plastic colander for food and crockery
- Practical storage for washing utensils
- Variable placement with secure grip
- More efficient and flexible use of the bowl

Recommended for BLANCO METRA, ADON and PLEON

235 866

TOP RAILS

- Positioned at the edge of the bowl, the Top-Rails create a bridge over the sink and provide a second level for working
- Further possibilities of use on the worktop (e.g. as a trivet)
- Made of high-quality stainless steel
- Recommended for BLANCO SUBLINE and PLEON SILGRANIT and also for ANDANO, SUPRA, ZEROX

235 906

MULTIFUNCTIONAL COLANDERS

- The perfect addition to sinks and bowls
- For washing, draining and holding fruit and vegetables
- Made of high-quality, easy-care stainless steel

Recommended for BLANCO ETAGON and SUBLINE in SILGRANIT

227 689

FLOATING GRIDS

- When attached to the bowl, the floating grid provides an additional functional level
- Ideal e.g. for draining crockery or washing food
- Alongside the sink, the drip grid serves as a trivet
- Increases the functionality of a sink, while requiring little space
- Made of high-quality stainless steel

Recommended for BLANCO PLEON and SUBLINE SILGRANIT

234795

CAPFLOW

- Aesthetic cover for outlet
- Fully functional basket strainer
- Versatile use on any sink with 3 1/2" outlet
- Not compatible with the InFino drain system

517666

LAY-ON WAVE DRAINERS

- Exceptional, attractive wave-look design
- High level of functionality resulting from the excellent drain effect and the safe support for dishes
- Ideal complement to undermount bowls and bowls with the IF low-profile rim and with the classic profiled edge

230734

CUTTING OVERLAYS/PLASTIC FLEXIBLE PAD

- Suitable for dishwashers 65°C
- Perfect protection of knives and chopping board
- Suitable for food use and hygienic
- For universal use on BLANCO chopping boards

225469

UNIVERSAL CUTTING BOARDS FOR U AND IF BOWLS

- Suitable for use in bowls designed for undermount or IF flat rim installation
- Cutting boards attached to the worktop cut-out or the interior wall of the bowl increase the functionality

Silver-coloured safety glass cutting board
Recommended for BLANCO ETAGON-U in Stainless steel
and Silgranit, ANDANO, SUPRA, SUBLINE in Silgranit
(unsuitable for ANDANO / ETAGON IF/A)

227 697

BLANCO MOVEX

- Practically pull-out technology – front door is fitted to a profile strip and pulled by the foot
- Easy, user-friendly operation
- Fitting is straightforward thanks to the mounting template – no adjustments required
- Exclusive stainless steel trim
